Asst. Code Compliance Manager

15 January, 2015

We issued zero construction permits and zero code compliance certificates for the year 2014.

Fire safety inspections were made throughout 2014 at all Bridge Authority buildings. Any violations found were corrected during the inspections at all locations. Monthly safety reports are prepared by each facility and kept on file at the Headquarters building, which include some of the procedures done during the annual inspection. Fire drills are practiced at least once per year at each facility.

There were no code-related complaints made during the year 2014.
