PART F. WORK PROGRAM

Identify the project's component tasks or stages and their costs, and provide a schedule for their completion. Clearly identify the nature of the local funding share.

Provide a project site map with enough detail to accurately determine the project site. Provide general information of the waterfront area uses and natural resources in which the dock will be located, as well as any potential impacts on these natural resources or waterfront uses. Provide a description of the water depth and a characterization of the existing or proposed shoreline stabilization, if any.

Provide a description of the anticipated boating uses associated with the proposed dock. List the items that will be constructed or rehabilitated with the grant and the reasons why the improvements are necessary. Any engineering or feasibility analysis already completed related to the project should be provided.

PART F. WORK PROGRAM *(Continued)*

G. COMPLEMENTARY PROJECTS

Describe (if applicable) how the project proposed for funding complements related activities funded or proposed for funding under the Environmental Protection Fund, other New York State grant programs, federal grant programs, or other sources of funds. (Submission of a chart or other graphic that shows how the proposed project is part of a larger plan of action is encouraged).

H. WATERFRONT REVITALIZATION PROGRAM IMPLEMENTATION

Describe how the proposed project is consistent with the policies or implements a project identified in the applicant municipality's Local Waterfront Revitalization Program or other community-based planning process.

I. PROJECT PERSONNEL

Identify key personnel and briefly describe their qualifications.

J. PERMITS AND APPROVALS

Construction projects should be achievable during the contract period. Indicate permits and approvals needed, status, and the expected issuance date, if they are not already acquired.

K. OPERATION AND MAINTENANCE

For construction projects, describe and provide a schedule for how the project will be operated and maintained over its life, including responsible entities and the source(s) of continuing financial support. If docks are to be removed seasonally, provide a description of who will be responsible for removing the docks and where they will be stored.
