c/o Mr. Gerard Hathaway, Acting Assistant Director for Technical Services by email  
New York State Department of State  
Division of Codes Enforcement and Administration

**RE: Annual Report required by Part 1204 for the State University of New York**

Dear Mr. Piester;

This letter will serve to notify you that the State University of New York has prepared the annual report required under Part 1204 of Title 19, *Uniform Code: Administration and Enforcement by State Agencies*, for the 2014 calendar year. In accordance with your letter dated February 4, 2015, the report is being submitted, electronically and in its entirety, to Mr. Hathaway. (For ease of manipulation, the report has been formatted to two PDFs, attached.)

The State University takes its fire safety and building code enforcement responsibilities very seriously. Compliance with Parts 1204 is strongly supported, as is compliance with a number of other fire safety programs. All campuses have designated at least one *Code Coordinator* and one *Code Compliance Manager* per the requirements of Part 1204. Many campuses have additional personnel trained to the Manager (Code Enforcement Officer) or Coordinator (Technician) levels. Each facility is inspected by the Office of Fire Prevention and Control (OFPC) on an annual basis.

This report includes information on thirty-three local programs. An overview of the report for the 2014 calendar year is provided here:

- Permits issued: 394
- Code compliance certificates or temporary approvals for occupancy issued: 340
- Total permits active during the year: 605
- Permits remaining open at the end of the year: 266
- A total of eighty-nine items of non-compliance exceeding sixty days were reported. Almost all are related to OFPC findings, and the campuses availed themselves of the OFPC compliance plans as permitted under *Part 500 Campus Fire Safety*.
- No additional code complaints were received.

Please feel free to contact me, [Barbara.Boyle@suny.edu](mailto:Barbara.Boyle@suny.edu), (518) 320-1879, if you need additional information.

Regards,  
Barbara
