EMERGENCY RULE MAKING

Eligibility Requirements for the Endorsement Pathway for Certification as an Educator in the Classroom Teaching Service

I.D. No. EDU-25-19-00014-E

Filing No. 785

Filing Date: 2019-09-03

Effective Date: 2019-09-03

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following action:

Action taken: Amendment of sections 80-5.8 and 80-5.20 of Title 8 NYCRR.

Statutory authority: Education Law, sections 207, 305, 3001, 3004, 3006, 3007 and 3009

Finding of necessity for emergency rule: Preservation of general welfare.

Specific reasons underlying the finding of necessity: The Department is proposing revisions to the endorsement pathway to certification to provide candidates with more flexibility in the pathway by taking more extenuating circumstances into account while maintaining high standards for them. In addition, these candidates may be applying for teacher certification in shortage areas, which could increase the number of teachers who could address teaching needs in New York State.

Because the Board of Regents meets at scheduled intervals, the earliest the proposed amendment could be presented for regular (non-emergency) adoption, after publication in the *State Register* and expiration of the 60-day public comment period provided for in the State Administrative Procedure Act (SAPA) Sections 202(1) and (5), is the October 2019 Regents

meeting. Furthermore, pursuant to SAPA Section 203(1), the earliest effective date of the proposed amendment, if adopted at the October Regents meeting, is October 23, 2019, the date a Notice of Adoption would be published in the *State Register*. However, because many candidates will apply for certification during the summer in anticipation of the 2019-2020 academic year, emergency action is necessary now for the preservation of the general welfare in order to ensure that they can take advantage of the proposed eligibility requirements and to ensure that the emergency action taken at the June 2019 meeting of the Board of Regents remains continuously in effect until it can be adopted as a permanent rule at the October 2019 Board of Regents meeting.

Regulatory Impact Statement

1. STATUTORY AUTHORITY:

Education Law 101 (not subdivided) charges the Department with the general management and supervision of all public schools and all of the educational work of the state.

Education Law 207 (not subdivided) grants general rule-making authority to the Regents to carry into effect State educational laws and policies.

Education Law 305(1) authorizes the Commissioner to enforce laws relating to the State educational system and execute Regents educational policies. Section 305(2) provides the Commissioner with general supervision over schools and authority to advise and guide school district officers in their duties and the general management of their schools.

Education Law 3001 establishes the qualifications of teachers in the classroom.

Education Law 3004 authorizes the Commissioner to promulgate regulations governing the certification requirements for teachers employed in public schools.

Education Law 3006 establishes that the Commissioner may issue life state certificates upon examinations which shall entitle its holder to teach for life in the public schools without further examination.

Education Law 3007 authorizes the Commissioner to endorse a diploma or certificate issued by a teachers college or chief educational officer or state board of another state.

Education Law 3009 prohibits school district money from being used to pay the salary of an unqualified teacher.

2. LEGISLATIVE OBJECTIVES:

The purpose of the proposed amendments to Sections 80-5.8 and 80-5.20 of the Regulations of the Commissioner of Education relating to the eligibility requirements for the endorsement pathway for certification as an educator in the classroom teaching service or in the educational leadership service is to provide candidates with more flexibility to be eligible for the endorsement pathway by taking more extenuating circumstances into account while maintaining high standards for candidates. In addition, these candidates may be applying for teacher certification in shortage areas, which could increase the number of teachers who could address teaching needs in New York State.

3. NEEDS AND BENEFITS:

The Department consistently encounters out-of-state candidates who demonstrate their efficacy as an educator in another state but are not eligible for the endorsement pathway because they do not meet all of the requirements. For example, a candidate may have worked for six years as an elementary teacher and then four years as a principal in a public school in another state under valid certificates and received effective ratings during their ten years of experience. However, the candidate would not be eligible for the Childhood Education certificate through the endorsement pathway because the candidate would not have three years of teaching experience within the past five years.

4. COSTS:

a. Costs to State government: The amendments do not impose any costs on State government, including the State Education Department.

b. Costs to local government: The amendments do not impose any costs on local government.

c. Costs to private regulated parties: The amendments do not impose any costs on private regulated parties.

d. Costs to regulating agency for implementation and continued administration: See above.

5. LOCAL GOVERNMENT MANDATES:

The proposed amendments do not impose any additional program, service, duty or responsibility upon any local government.

6. PAPERWORK:

The proposed amendments do not impose any additional paperwork requirements.

7. DUPLICATION:

The proposed amendments do not duplicate existing State or Federal requirements.

8. ALTERNATIVES:

Because the State believes that uniform flexible certification standards are required across the State, no alternatives were considered.

9. FEDERAL STANDARDS:

There are no applicable Federal standards.

10. COMPLIANCE SCHEDULE:

If adopted as an emergency action by the Board of Regents at its June 2019 meeting, the proposed amendment will be effective on Jun 4, 2019. Following the 60-day public comment period required under the State Administrative Procedure Act, it is anticipated that the proposed amendment will be presented to the Board of Regents for permanent adoption at its October 2019 meeting. If adopted at the October 2019 meeting, the proposed amendment will become effective on October 23, 2019.

Regulatory Flexibility Analysis

The purpose of the proposed amendments to Sections 80-5.8 and 80-5.20 is to create three revisions to the eligibility requirements for the endorsement pathway to certification to provide candidates with more flexibility to be eligible for the endorsement pathway by taking more extenuating circumstances into account while maintaining high standards for candidates.

The Department consistently encounters out-of-state candidates who demonstrate their efficacy as an educator in another state but are not eligible for the endorsement pathway because they do not meet all of the requirements. For example, a candidate may have worked for six years as an elementary teacher and then four years as a principal in a public school in another state under valid certificates and received effective ratings during their ten years of experience. However, the candidate would not be eligible for the Childhood Education certificate through the endorsement pathway because the candidate would not have three years of teaching experience within the past five years.

The proposed revisions provide candidates with more flexibility to be eligible for the endorsement pathway by taking other circumstances into account while maintaining high standards for candidates. In addition, these candidates may be applying for teacher certification in shortage areas, which could increase the number of teachers who could address teaching needs in New York State.

The amendments do not impose any new recordkeeping or other compliance requirements and will not have an adverse economic impact on small businesses or local governments. Because it is evident from the nature of the proposed amendments that they will not affect small businesses or local governments, no further steps were needed to ascertain that fact and none were taken. Accordingly, a regulatory flexibility analysis for small businesses is not required and one has not been prepared.

Rural Area Flexibility Analysis

1. TYPES AND ESTIMATED NUMBERS OF RURAL AREAS:

The proposed amendments apply to all individuals in New York State who are candidates with experience teaching or working as an administrator in another state while holding a valid out-of-state certificate who may be eligible for certification through the endorsement pathway, including those located in the 44 rural counties with fewer than 200,000 inhabitants and the 71 towns and urban counties with a population density of 150 square miles or less.

2. REPORTING, RECORDKEEPING AND OTHER COMPLIANCE REQUIREMENTS; AND PROFESSIONAL SERVICES:

The purpose of the proposed amendments to Sections 80-5.8 and 80-5.20 of the Regulations of the Commissioner of Education relating to the eligibility requirements for the endorsement pathway for certification as an educator in the classroom teaching service or in the educational leadership service is to create three revisions to the eligibility requirements for the endorsement pathway to certification that will permit experience from multiple states that will allow candidates who worked in more than one state during their three years of experience to be eligible for the endorsement pathway, including military spouses.

The Department consistently encounters out-of-state candidates who demonstrate their efficacy as an educator in another state but are not eligible for the endorsement pathway because they do not meet all of the requirements. For example, a candidate may have worked for six years as an elementary teacher and then four years as a principal in a public school in another state under valid certificates and received effective ratings during their ten years of experience. However, the candidate would not be eligible for the Childhood Education certificate through the endorsement pathway because the candidate would not have three years of teaching experience within the past five years.

The Department is proposing three revisions to the eligibility requirements for the endorsement pathway to certification. First, the reference to certificates and experience "in another state or territory of the United States" would be replaced with certificates and experiences "in other state(s) or territory(ies) of the United States." The new phrase would remove any ambiguity that candidates are able to hold certificates and have experience in multiple states. Permitting experience from multiple states would allow candidates who worked in more than one state during their three years of experience to be eligible for the endorsement pathway, including military spouses.

Second, the time period in which candidates may complete their three years of experience would be extended from five years to seven years. The

additional two years could capture additional candidates who are current with best practices but completed their three years of experience a little further back in time due to a variety of reasons (e.g., raising a family, holding different teaching and/or administrative positions).

Finally, the evaluation ratings of effective or highly effective could occur in any three years of experience and not necessarily the three most recent years of experience. Removing the restriction that the ratings must be in the three most recent years enables candidates who may have difficulty obtaining ratings from their most recent employer to be eligible for the endorsement pathway. For example, some states do not give their educators ratings every year after they pass their probationary period.

The proposed revisions provide candidates with more flexibility to be eligible for the endorsement pathway by taking more extenuating circumstances into account while maintaining high standards for candidates. In addition, these candidates may be applying for teacher certification in shortage areas, which could increase the number of teachers who could address teaching needs in New York State.

3. COSTS:

The proposed amendments do not impose any costs on teacher certification candidates and/or the New York State school districts/BOCES who wish to hire them.

4. MINIMIZING ADVERSE IMPACT:

The Department believes that uniform but flexible standards for certification must be established across the State. Therefore, no alternatives were considered for those located in rural areas of the State.

5. RURAL AREA PARTICIPATION:

Copies of the proposed amendments have been provided to Rural Advisory Committee for review and comment.

Job Impact Statement

The purpose of the proposed amendments to Sections 80-5.8 and 80-5.20 is to create three revisions to the eligibility requirements for the endorsement pathway to certification in order to provide candidates with more flexibility to be eligible for the endorsement pathway by taking more extenuating circumstances into account while maintaining high standards for candidates.

First, the reference to certificates and experience "in another state or territory of the United States" would be replaced with certificates and experiences "in other state(s) or territory(ies) of the United States." The new phrase would remove any ambiguity that candidates are able to hold certificates and have experience in multiple states. Permitting experience from multiple states would allow candidates who worked in more than one state during their three years of experience to be eligible for the endorsement pathway, including military spouses.

Second, the time period in which candidates may complete their three years of experience would be extended from five years to seven years. The additional two years could capture additional candidates who are current with best practices, but completed their three years of experience a little further back in time due to a variety of reasons (e.g., raising a family, holding different teaching and/or administrative positions).

Finally, the evaluation ratings of effective or highly effective could occur in any three years of experience and not necessarily the three most recent years of experience. Removing the restriction that the ratings must be in the three most recent years enables candidates who may have difficulty obtaining ratings from their most recent employer to be eligible for the endorsement pathway. For example, some states do not give their educators ratings every year after they pass their probationary period.

The proposed revisions provide candidates with more flexibility to be eligible for the endorsement pathway by taking more extenuating circumstances into account while maintaining high standards for candidates. In addition, these candidates may be applying for teacher certification in shortage areas, which could increase the number of teachers who could address teaching needs in New York State.

Because it is evident from the nature of the proposed amendment that it will have no impact on the number of jobs or employment opportunities in New York State, no further steps were needed to ascertain that fact and none were taken.

EMERGENCY RULE MAKING

Statement of Continued Eligibility for Certain Teachers of Students with Disabilities

I.D. No. EDU-25-19-00015-E

Filing No. 784

Filing Date: 2019-09-03

Effective Date: 2019-09-03

PURSUANT TO THE PROVISIONS OF THE State Administrative Procedure Act, NOTICE is hereby given of the following action:

Action taken: Amendment of sections 80-3.15 and 80-4.3 of Title 8 NYCRR.

Statutory authority: Education Law, sections 101, 207, 210, 215, 305, 3001, 3003, 3004 and 3009

Finding of necessity for emergency rule: Preservation of general welfare.

Specific reasons underlying the finding of necessity: The Department is proposing to extend the application deadline for the statement of continued eligibility (SOCE) for certain teachers of students with disabilities from July 1, 2019 to June 30, 2020. By extending the application deadline, the teachers who hold the Students with Disabilities (Grades 7-12) content specialist certificate, Students with Disabilities (Grades 5-9) Generalist certificate, Students with Disabilities (Grades 5-9) content specialist certificate, and Special Education (K-Grade 12) certificate would have more than one year to apply for the SOCE instead of only approximately four months. The extension would give these teachers the time needed to collect and submit the documents required for the SOCE application. The proposed amendment also extends the time period upon which the experience must be completed from July 1, 2019 to June 30, 2020.

Because the Board of Regents meets at scheduled intervals, the earliest the proposed amendment could be presented for regular (non-emergency) adoption, after publication in the State Register and expiration of the 60-day public comment period provided for in the State Administrative Procedure Act (SAPA) Sections 202(1) and (5), is the October 2019 Regents meeting. Furthermore, pursuant to SAPA Section 203(1), the earliest effective date of the proposed amendment, if adopted at the October Regents meeting, is October 23, 2019, the date a Notice of Adoption would be published in the State Register. However, because the current SOCE application deadline is July 1, 2019, emergency action is necessary now for the preservation of the general welfare in order to ensure that certain teachers who teach students with disabilities have the time needed to collect and submit the documents required for the SOCE application and to provide teachers with notice that the time period upon which the experience must be completed has been extended from July 1, 2019 to June 30, 2020 and to ensure that the emergency rule adopted at the June 2019 Regents meeting remains in effect until it can be adopted as a permanent rule.

Subject: Statement of continued eligibility for certain teachers of students with disabilities.

Purpose: Extension of the deadline for completing teaching experience while under a HOUSSE rubric for the SOCE.

Text of emergency rule: 1. Subdivision (d) and subparagraph (1) of section 80-3.15 of the Regulations of the Commissioner of Education shall be amended to read as follows:

(d) Applications for the statement of continued eligibility shall be submitted to the department, on a form prescribed by the commissioner, on or before [July 1, 2019] *June 30, 2020* and candidates must meet the requirements in the following paragraph to be issued a statement of continued eligibility for each subject area in which a statement of continued eligibility is sought prior to [July 1, 2019] *June 30, 2020*:

(1) As part of the application, the candidate shall submit satisfactory evidence of at least three years of satisfactory full-time teaching experience prior to [July 1, 2019] *June 30, 2020*, during which time the candidate met the qualifications to be considered highly qualified for a core academic subject for purposes of the No Child Left Behind Act (NCLB) under the former 34 C.F.R. 200.56 through passing the high objective uniform State standard of evaluation rubric (HOUSSE) to demonstrate subject matter competency in grades 7-12 in the subject area in which the statement of continued eligibility sought. The candidate shall submit, as part of the application, the completed HOUSSE rubric from the district(s) for each year of experience for each subject area that the candidate seeks a statement of continued eligibility.

2. Subparagraph (i) of paragraph (3) of subdivision (t) of section 80-4.3 of the Regulations of the Commissioner of Education shall be amended to read as follows:

The candidate shall submit, as part of the application, the completed HOUSSE rubric from the district(s) for each year of experience for each subject area that the candidate seeks a limited extension;

Regulatory Impact Statement

1. STATUTORY AUTHORITY:

Education Law 101 (not subdivided) charges the Department with the general management and supervision of all public schools and all of the educational work of the state.

Education Law 207 (not subdivided) grants general rule-making authority to the Regents to carry into effect State educational laws and policies.

Education Law 210 (not subdivided) authorizes the Regents to register domestic and foreign institutions in terms of New York standards.

Education Law 215 authorizes the Regents and/or the Commissioner to visit, examine and inspect any institution in the university and any school or institution under the educational supervision of the state.

Education Law 305 authorizes the Commissioner to enforce laws relating to the State educational system and execute Regents educational policies. Section 305(2) provides the Commissioner with general supervision over schools and authority to advise and guide school district officers in their duties and the general management of their schools.

Education Law 3001 establishes the qualifications of teachers in the classroom.

Education Law 3004 authorizes the Commissioner to promulgate regulations governing the certification requirements for teachers employed in public schools.

Education Law 3009 prohibits school district money from being used to pay the salary of an unqualified teacher.

2. LEGISLATIVE OBJECTIVES:

The purpose of the proposed amendments to Sections 80-3.15 and 80-4.3 of the Regulations of the Commissioner of Education is to extend the application deadline for the statement of continued eligibility (SOCE) for certain teachers of students with disabilities and to extend the deadline for completing teaching experience while under a HOUSSE rubric from July 1, 2019 to June 30, 2020. By extending the application deadline, teachers who hold the Students with Disabilities (Grades 7-12) content specialist certificate, Students with Disabilities (Grades 5-9) Generalist certificate, Students with Disabilities (Grades 5-9) content specialist certificate, and Special Education (K-Grade 12) certificate would have almost one year to apply for the SOCE instead of only approximately four months.

3. NEEDS AND BENEFITS:

The extension of the application deadline would give these teachers the time needed to collect and submit evidence of at least three years of satisfactory full-time teaching experience under a HOUSSE rubric for each subject area in which the SOCE is sought. The regulations also require that candidates must submit a completed HOUSSE rubric from each district for each year of experience for each subject area that the candidate seeks an SOCE, but teachers only need to submit one HOUSSE rubric for each subject area in a district to demonstrate their competency in that subject for their experience in such district.

For the SOCE and limited extension, candidates must currently complete their satisfactory full-time teaching experience while under a HOUSSE rubric prior to July 1, 2019. The Department is also proposing to extend the time period upon which the experience must be completed from July 1, 2019 to June 30, 2020.

4. COSTS:

a. Costs to State government: The amendments do not impose any costs on State government, including the State Education Department.

b. Costs to local government: The amendments do not impose any costs on local government.

c. Costs to private regulated parties: The amendments do not impose any costs on private regulated parties.

d. Costs to regulating agency for implementation and continued administration: See above.

5. LOCAL GOVERNMENT MANDATES:

The proposed amendments do not impose any additional program, service, duty or responsibility upon any local government.

6. PAPERWORK:

The proposed amendments do not impose any additional paperwork requirements.

7. DUPLICATION:

The proposed amendments do not duplicate existing State or Federal requirements.

8. ALTERNATIVES:

Because the State believes that uniform flexible teaching education standards are required across the State, no alternatives were considered.

9. FEDERAL STANDARDS:

There are no applicable Federal standards.

10. COMPLIANCE SCHEDULE:

If adopted as an emergency action by the Board of Regents at its June 2019 meeting, the proposed amendment will be effective on June 4, 2019. Following the 60-day public comment period required under the State Administrative Procedure Act, it is anticipated that the proposed amendment will be presented to the Board of Regents for adoption at its October 2019 meeting. If adopted at the October 2019 meeting, the proposed amendment will become effective on October 23, 2019.

Regulatory Flexibility Analysis

The purpose of the proposed amendments to Sections 80-3.15 and 80-4.3 of the Regulations of the Commissioner of Education is to extend the application deadline for the statement of continued eligibility (SOCE) for certain teachers of students with disabilities and to extend the deadline for completing teaching experience while under a HOUSSE rubric from July 1, 2019 to June 30, 2020. By extending the application deadline, teachers who hold the Students with Disabilities (Grades 7-12) content specialist certificate, Students with Disabilities (Grades 5-9) Generalist certificate, Students with Disabilities (Grades 5-9) content specialist certificate, and Special Education (K-Grade 12) certificate would have almost one year to apply for the SOCE instead of only approximately four months.

The extension of the application deadline would give these teachers the time needed to collect and submit evidence of at least three years of satisfactory full-time teaching experience under a HOUSSE rubric for each subject area in which the SOCE is sought. The regulations also require that candidates must submit a completed HOUSSE rubric from each district for each year of experience for each subject area that the candidate seeks an SOCE, but teachers only need to submit one HOUSSE rubric for each subject area in a district to demonstrate their competency in that subject for their experience in such district.

For the SOCE and limited extension, candidates must currently complete their satisfactory full-time teaching experience while under a HOUSSE rubric prior to July 1, 2019. The Department is also proposing to extend the time period upon which the experience must be completed from July 1, 2019 to June 30, 2020.

The amendments do not impose any new recordkeeping or other compliance requirements and will not have an adverse economic impact on small businesses or local governments. Because it is evident from the nature of the proposed amendments that they will not affect small businesses or local governments, no further steps were needed to ascertain that fact and none were taken. Accordingly, a regulatory flexibility analysis for small businesses is not required and one has not been prepared.

Rural Area Flexibility Analysis

1. TYPES AND ESTIMATED NUMBERS OF RURAL AREAS:

The proposed amendments apply to all teachers of students with disabilities who hold a Students with Disabilities Generalist certificate in grades 7-12 and teach one or more core subject areas in special classes, including those located in the 44 rural counties with fewer than 200,000 inhabitants and the 71 towns and urban counties with a population density of 150 square miles or less.

2. REPORTING, RECORDKEEPING AND OTHER COMPLIANCE REQUIREMENTS; AND PROFESSIONAL SERVICES:

The purpose of the proposed amendments to Sections 80-3.15 and 80-4.3 of the Regulations of the Commissioner of Education is to extend the application deadline for the statement of continued eligibility (SOCE) for certain teachers of students with disabilities and to extend the deadline for completing teaching experience while under a HOUSSE rubric from July 1, 2019 to June 30, 2020. By extending the application deadline, teachers who hold the Students with Disabilities (Grades 7-12) content specialist certificate, Students with Disabilities (Grades 5-9) Generalist certificate, Students with Disabilities (Grades 5-9) content specialist certificate, and Special Education (K-Grade 12) certificate would have almost one year to apply for the SOCE instead of only approximately four months.

The extension of the application deadline would give these teachers the time needed to collect and submit evidence of at least three years of satisfactory full-time teaching experience under a HOUSSE rubric for each subject area in which the SOCE is sought. The regulations also require that candidates must submit a completed HOUSSE rubric from each district for each year of experience for each subject area that the candidate seeks an SOCE, but teachers only need to submit one HOUSSE rubric for each subject area in a district to demonstrate their competency in that subject for their experience in such district.

For the SOCE and limited extension, candidates must currently complete their satisfactory full-time teaching experience while under a HOUSSE rubric prior to July 1, 2019. The Department is also proposing to extend the time period upon which the experience must be completed from July 1, 2019 to June 30, 2020.

3. COSTS:

The proposed amendments do not impose any costs on candidates and/or the New York State school districts/BOCES who wish to hire them.

4. MINIMIZING ADVERSE IMPACT:

The Department believes that uniform standards for teacher training must be established across the State. Therefore, no alternatives were considered for those located in rural areas of the State.

5. RURAL AREA PARTICIPATION:

Copies of the proposed amendments have been provided to Rural Advisory Committee for review and comment.

Job Impact Statement

The Department is proposing to extend the application deadline for the statement of continued eligibility (SOCE) for certain teachers of students with disabilities from July 1, 2019 to June 30, 2020. By extending the application deadline, the teachers who hold the Students with Disabilities (Grades 7-12) content specialist certificate, Students with Disabilities (Grades 5-9) Generalist certificate, Students with Disabilities (Grades 5-9) content specialist certificate, and Special Education (K-Grade 12) certificate would have more than one year to apply for the SOCE instead of only approximately four months. The extension would give these teachers the time needed to collect and submit the documents required for the SOCE application. The proposed amendment also extends the time period upon which the experience must be completed from July 1, 2019 to June 30, 2020.

Because it is evident from the nature of the proposed amendment that it will have no impact on the number of jobs or employment opportunities in New York State, no further steps were needed to ascertain that fact and none were taken.

Regulatory Impact Statement

1. Statutory Authority

Section 11-0511 of the Environmental Conservation Law (ECL) authorizes the Department of Environmental Conservation (department) to promulgate regulations for the possession, transport, import or export of animals that the department finds would present a danger to the health or welfare of the people of the state or indigenous fish or wildlife populations.

2. Legislative Objectives

The legislative objective of the statutory provisions listed above is to authorize the department to establish a list of dangerous animals that present a danger to the health or welfare of the people of the state or indigenous fish or wildlife populations and to establish a licensing structure that will ensure that the health and welfare of the people of the state or indigenous fish and wildlife populations are not threatened by possession or release of dangerous animals.

3. Needs and Benefits

This rule making would amend existing 6 NYCRR section 180.1 by expanding the list of animals that the department finds presents a danger to the health or welfare of the people of the state or indigenous fish or wildlife

populations. This revision is necessary because the current regulations do not meet the intent of the authorizing statutes. Consequently, the current regulations do not provide adequate safeguards for protecting the health and safety of the people of the state or indigenous fish or wildlife populations nor do they provide a comprehensive list of animals that present a danger to the people of the state or indigenous fish or wildlife populations.

Attacks from dangerous animals held in captivity have resulted in injury and death of humans in the U.S and abroad. In New York State alone, several incidents have occurred resulting in serious injury to individuals.

- Suffolk County 2016 – a 33-year-old man was airlifted to a hospital after being bitten by a viper in his home.
- Putnam Lake, NY 2011 - a woman died after being bitten by an African black mamba snake.
- Washington County 2010 - a seven-year-old girl was bitten by a lemur on display at a facility.
- Catskill, NY 2006 - a woman was attacked by a capuchin monkey leaving her face permanently scarred.
- Saratoga, NY 2006 - a 4-year-old boy was rushed to a hospital after being clawed in the head by a tiger on display at a fair.
- New Brunswick, Canada 2013 - two brothers ages four and six were strangled to death by a python.
- Indiana 2013 - an employee at an exotic cat sanctuary was mauled by a tiger.
- Ohio 2011- police were forced to kill approximately 56 exotic animals including bears, tigers and lions that were released by their owner.
- Connecticut 2009 - a woman was severely injured when a chimpanzee got loose and attacked her.
- Throughout the U.S. cases of attacks, bites and death from python and constrictor snakes are well documented.

Responding to the threat posed by dangerous animals the U. S. Fish and Wildlife Service (USFWS) amended its regulations by adding five python and four anaconda species to its list of injurious wildlife. Additionally, USFWS passed the Captive Wildlife Safety Act which severely restricts the importation, exportation, purchase, sale or receipt in interstate or foreign commerce of live lions, tigers, leopards, jaguars and cougars. Similarly, several states including New York have passed legislation and regulations banning the private possession of exotic animals as pets. The New York State Legislature, in 2004, found that keeping exotic animals as pets poses a serious threat to the health and safety of New York residents. The Legislature further stated that “[A]cross the country, children have been mauled by tigers, asphyxiated by snakes, and bitten by monkeys. Wild animals kept as pets can transmit serious diseases to people, including Herpes B, Salmonella and Ebola virus. Recapture of escaped wild animals is an expensive and perilous endeavor for municipalities. Other states already prohibit private ownership of certain wild animals as pets, a position supported by the United States Department of Agriculture, the Centers for Disease Control, and the American Veterinary Medical Association. New York must take similar steps to ensure the protection of the public and the humane treatment of wild animals.”

The ban on ownership of exotic animals as pets in New York State has not prevented the threat that these animals pose to the public or indigenous fish or wildlife as evidenced by the escape of and, injury from dangerous animals held at facilities licensed by the department under the current regulatory scheme to possess such animals for exhibition. As listed above, the New York incidents involving the mauling of a woman by a capuchin monkey, the clawing of the four-year-old boy by a tiger, and the biting of the seven-year-old girl by a lemur resulted from injuries sustained from animals that were held under licenses issued by the department. In addition, dangerous animals have escaped from licensed facilities in New York including tigers, lynx, primates, wolves, and alligators. Under the current regulations, the department cannot effectively regulate the private possession of dangerous animals in New York State.

In order to meet statutory requirements and ensure the health and safety of the people of the state and indigenous fish or wildlife populations, the department must take steps to prohibit individual ownership of dangerous animals and regulate possession of dangerous animals held for exhibition purposes.

The proposed rule would create a comprehensive list of animals that can cause serious threats to the people of the state or indigenous fish or wildlife populations. The rule would provide the department with the necessary means to allow qualified entities to possess such animals under license issued by the department while ensuring the health and welfare of the people of the state and indigenous fish or wildlife populations.

4. Costs

There are no costs to the department or local governments. The proposed rule would only expand the list of animals that the department has found pose a threat to the health and safety of the people of the state or indigenous fish and wildlife populations. Individuals would follow the same application process already required by the department for possession of listed dangerous animals.

5. Local Government Mandates

These amendments will not impose any programs, services, duties or responsibilities upon any county, city, town, village, school district or fire district.

6. Paperwork

The proposed rule would require individuals currently licensed by the department for possession of dangerous animals to obtain a license issued pursuant to this part. Additionally, any individuals currently in possession of animals not previously listed as dangerous animals (for example, wolverines and badgers) would be required to obtain a license from the department. The paperwork involved with obtaining such a license from the department is standard and will not impose any undue burden on applicants.

7. Duplication

The Federal Animal Welfare Act (Title 7 U.S. Code, Chapter 54) and Federal Animal Welfare Regulations (Title 9 of the Code of Federal Regulations, Chapter 1) require that any person exhibiting mammals must obtain a U.S. Department of Agriculture (USDA) license. USDA will issue a license following an inspection of a facility evaluating caging and animal handling experience, however, the USDA license does not address issues involving the welfare of the people of the state or indigenous fish or wildlife populations. Additionally, the Animal Welfare Regulations do not apply to reptiles including alligators, crocodiles, large constrictor snakes or venomous reptiles.

8. Alternatives

The department considered several alternatives to the proposed rule.

Alternative 1. Remove all restrictions for possession of dangerous animals in New York State. Under this alternative only USDA licensed facilities exhibiting mammals would be operating under a license. The USDA license would not cover amphibians or reptiles including alligators, crocodiles, large constrictor snakes, and venomous reptiles. This alternative would not meet the intent of the ECL as it would not ensure the welfare of the people of the state or indigenous fish or wildlife populations.

Alternative 2. Prohibit possession of dangerous animals by any person or entity in New York State. Under this alternative, the department would prohibit the possession of any animals listed as dangerous animal for any purpose in NYS including at facilities such as the Bronx Zoo which are accredited by the Association of Zoos and Aquariums (AZA). Although this alternative would arguably meet the intent of the ECL, it would severely impact AZA accredited zoos and other facilities which are capable of safely housing and displaying dangerous animals, from possessing such species for exhibition or for participation in the AZA Species Survival Plan – an integral component in the management of endangered and threatened species. This alternative would require all facilities currently licensed to possess dangerous animals to transfer these animals from their facility. This would impact facilities in New York currently generating revenue from the exhibition of dangerous animals without providing an appreciable improvement in protecting the welfare of the people of the state. The department did not choose this alternative as it would immediately affect facilities in New York State without providing time to adjust their businesses to non-regulated species and would not meet the intent of the ECL.

Alternative 3. Expand the list of animals that the department finds present a danger to the health or welfare of the people of the state or indigenous wildlife populations and require a department issued license to possess these species. This is the department’s preferred alternative. By expanding the list of animals that the department finds present a danger to the health or welfare of the people of the state or indigenous wildlife populations the department will be able to regulate possession of these dangerous animals to facilities that can safely house them and ensure that the animals cannot come in contact with the public and provide safeguards that minimize opportunities for animal escapes.

9. Federal Standards

The federal standards appear in Title 7 of U.S. Code, Chapter 54 and Title 9 of the Code of Federal Regulations, Chapter 1. The proposed rule does not exceed any minimum standards of the federal government.

10. Compliance Schedule

These regulations, if adopted, will become effective immediately. Once adopted, currently licensed facilities, and individuals possessing species previously not regulated by the department, will have 180 days to apply for and receive a new license issued pursuant to this part.

Regulatory Flexibility Analysis

The purpose of this rulemaking is to amend the Department of Environmental Conservation’s (department) general regulations found in 6 NYCRR Part 180 of the New York State Codes, Rules and Regulations governing the possession of dangerous animals for exhibition by expanding the list of dangerous animals in subdivision (b) of Section 180.1 to include all species listed in Environmental Conservation Law (ECL) § 11-0103(6)(e) which have been found by the legislature to pose a serious threat to the health and safety of New York Residents, and to expand this

list by including additional species that are a threat to the health and safety of the public and indigenous fish and wildlife populations of the state. The rule would provide the department the authority to regulate the possession of dangerous animals held for exhibition purposes by requiring that individuals obtain a license to possess any dangerous animal in New York State.

The department has determined that the proposed rule will not impose any significant adverse economic impact or reporting, record keeping, or other compliance requirements on small business or local governments. There will be no impacts on local governments. The regulation expands the list of species which the department has found to be dangerous to the health and safety of the public and indigenous fish and wildlife populations and requires that a license be obtained prior to taking possession of any dangerous animal. Any impacts to small businesses have been minimized. As described in the Job Impact Statement, the proposed rule allows currently licensed individuals to obtain a license to continue possession of licensed dangerous animals.

Because the department's proposed rulemaking will not impose an adverse impact on businesses or local governments, including little effect on current reporting, record-keeping or compliance requirements, the department has concluded that this proposed regulation does not require a Regulatory Flexibility Analysis.

Rural Area Flexibility Analysis

The purpose of this rulemaking is to amend the Department of Environmental Conservation's (department) general regulations found in 6 NYCRR Part 180 of the New York State Codes, Rules and Regulations governing the possession of dangerous animals for exhibition by expanding the list of dangerous animals in subdivision (b) of Section 180.1 to include all species listed in Environmental Conservation Law (ECL) § 11-0103(6)(e) which have been found by the legislature to pose a serious threat to the health and safety of New York Residents and, to expand this list by including additional species that are a threat to the health and safety of the public and indigenous fish and wildlife populations of the state. The rule would provide the department the authority to regulate the possession of dangerous animals held for exhibition purposes by requiring that individuals obtain a license to possess any dangerous animal in New York State.

The department has determined that the proposed rule will not impose any adverse impact on rural areas or reporting, record keeping or other compliance requirements on public or private entities in rural areas. The regulation expands the list of species which the department has found to be dangerous to the health and safety of the public and indigenous fish and wildlife populations of the state and requires that a license be obtained prior to taking possession of any dangerous animal.

Because the department's proposed rulemaking will not impose an adverse impact on public or private entities in rural areas, including little effect on current reporting, record-keeping or compliance requirements, the department has concluded that this proposed regulation does not require a Rural Area Flexibility Analysis.

Job Impact Statement

1. Nature of impact

The proposed rule would not have a substantial adverse impact on jobs and employment opportunities as the proposed rule only seeks to expand the list of dangerous wildlife in 6 NYCRR section 180.1 which present a danger to the health or welfare of the people of the State, individual residents, or indigenous wildlife populations. A majority of the animals listed in the proposed rule are already regulated by the department and currently require that a license be obtained prior to possessing any of these species. Additionally, a majority of the newer species proposed for inclusion in the list of dangerous animals are possessed by the same individuals or facilities which are already licensed by the department for other, currently regulated species. Therefore, most of these facilities will not see any increased licensing requirements or experience any adverse impact on their current business or employment practices.

Additionally, approximately 30% of the individuals who currently possess a license to possess dangerous animals or who possess dangerous animals not currently licensed by the department, are small-scale exhibitors possessing only one or two dangerous animals, primarily alligators or snakes, and are hobbyist rather than zoo facilities. Many of these individuals maintain these animals at their homes which are not open for public viewing and instead will travel with the animals(s) to display them at a small number of events in their local areas. Any of these individuals currently licensed by the department, or who are in possession of previously non-listed dangerous animals for exhibition purposes, will be allowed to maintain or obtain an exhibitors license from the department.

2. Categories and numbers affected

Currently, there are 137 licenses issued to individuals authorizing possession of dangerous animals. Seventeen of these licenses are issued to zoos which are accredited by the Association of Zoos and Aquariums

(AZA); 9 of these AZA zoos are located out-of-state. Of the remaining 120 licenses, 45 are issued to out-of-state facilities and the remaining 75 are issued to facilities located in New York State (NYS).

Thirty-two of the non-AZA accredited facilities in NYS are small to mid-sized facilities employing few individuals. The remaining 43 NYS licenses are issued to individuals who possess a limited number of dangerous animals and are hobbyist rather than businesses. Of these, 18 possess just one alligator or a caiman, and 10 possess either a venomous snake or a python. Some of the remaining individually licensed animals include bobcats, black bear, fox, lynx, wolf hybrids, lemur, and cougar.

3. Regions of adverse impact

Individuals and facilities affected by this proposed rulemaking are distributed throughout New York State and the proposed rule would not impose a disproportionate adverse impact on any specific region.

4. Minimizing adverse impact

The only requirement for currently licensed facilities will be for them to consolidate all dangerous animals currently held under the authority of separate licenses into one license issued pursuant to this section as well as to add any newly regulated species to the same license. Individuals in possession of dangerous animals not currently licensed by the department will need to apply for and receive a license from the department issued pursuant to this section. Following adoption of this rule, all such individuals will receive notification from the department along with an application and instructions on licensing the dangerous animals in their possession.

ACTION PENDING INDEX

The action pending index is a list of all proposed rules which are currently being considered for adoption. A proposed rule is added to the index when the notice of proposed rule making is first published in the *Register*. A proposed rule is removed from the index when any of the following occur: (1) the proposal is adopted as a permanent rule; (2) the proposal is rejected and withdrawn from consideration; or (3) the proposal's notice expires.

Most notices expire in approximately 12 months if the agency does not adopt or reject the proposal within that time. The expiration date is printed in the second column of the action pending index. Some notices, however, never expire. Those notices are identified by the word "exempt" in the second column. Actions pending for one year or more are preceded by an asterisk(*).

For additional information concerning any of the proposals

listed in the action pending index, use the identification number to locate the text of the original notice of proposed rule making. The identification number contains a code which identifies the agency, the issue of the *Register* in which the notice was printed, the year in which the notice was printed and the notice's serial number. The following diagram shows how to read identification number codes.
