

**New York State Department of State
2018-2019 Environmental Protection Fund
Local Waterfront Revitalization Program Grant Awards**

CAPITAL DISTRICT

Applicant: City of Albany

CFA Application Number: 81490

Project Name: Hudson River Waterfront Gateway Improvements Design and Construction

Project Descriptions: The City of Albany will design and construct improvements to the North and South Gateways of the Hudson River Waterfront. Improvements will include lighting, sidewalk enhancements, landscaping, street treatments and wayfinding signage. This project will advance the implementation of the City's Local Waterfront Revitalization Program by providing connectivity between the waterfront, business district and residential neighborhoods.

Award Amount: \$340,000

Applicant: Town of Bolton

CFA Application Number: 80358

Project Name: Rogers Memorial Park Waterfront Sustainability Improvements

Project Descriptions: The Town of Bolton, implementing its recently approved Local Waterfront Revitalization Program, will improve recreational amenities by designing and constructing the final phase of Rogers Memorial Park. Construction will include a bandstand, terraced retaining walls, accessible sidewalks for pedestrians, parking area, undergrounding overhead utility lines and stormwater improvements.

Award Amount: \$600,000

Applicant: City of Cohoes

CFA Application Number: 82699

Project Name: Hudson River Waterfront Park Design

Project Descriptions: The City of Cohoes will advance its Urban Waterfront Rediscovery Plan goal of creating waterfront access by designing a new public park on Van Schaick Island along the Hudson River. The park will feature a boat launch, docking, greenspace, seating, lighting, shoreline stabilization, parking and a pathway connecting to the Black Bridge Trail.

Award Amount: \$79,000

Applicant: Village of Coxsackie

CFA Application Number: 83353

Project Name: Village of Coxsackie Local Waterfront Revitalization Program

Project Descriptions: The Village of Coxsackie will develop a Local Waterfront Revitalization Program (LWRP) for its Hudson River waterfront and downtown area. This effort will complement the Village's Comprehensive Plan, address underutilized riverfront sites, and explore the feasibility of transforming a vacant Village-owned building into a visitor center. The LWRP will include an inventory and analysis of existing conditions, local law analysis, a land and water use plan, and identify revitalization projects.

Award Amount: \$100,000

**New York State Department of State
2018-2019 Environmental Protection Fund
Local Waterfront Revitalization Program Grant Awards**

Applicant: Warren County

CFA Application Number: 81948

Project Name: Schroon Lake Invasive Species Prevention and Control Program

Project Descriptions: Warren County, in partnership with the Towns of Horicon, Chester and Schroon, will implement a comprehensive aquatic invasive species prevention and control program for the Schroon Lake Basin. Implementation will include a comprehensive boat inspection and decontamination program to remove aquatic invasive species and hand harvesting to remove Eurasian Watermilfoil. The project will implement the 2010 Schroon Lake Watershed Management Plan.

Award Amount: \$289,750

Applicant: City of Watervliet

CFA Application Number: 84170

Project Name: Congress Street Bridge Waterfront Access and Connectivity Study

Project Descriptions: City of Watervliet, in partnership with the City of Troy, will study multi-modal transportation and connectivity options to improve safety and public access to the Hudson River at each end of the Congress Street Bridge. The Study will advance City of Watervliet Local Waterfront Revitalization Program goals by addressing complete streets reconfigurations and providing a template for improvements that will foster increased pedestrian and bike traffic and provide traffic and roadway alternatives.

Award Amount: \$170,000

Applicant: City of Watervliet

CFA Application Number: 82751

Project Name: Hudson Shores Park Shoreline Stabilization & Improvements

Project Descriptions: The City of Watervliet will implement a recommendation of their 2006 Local Waterfront Revitalization Program by making improvements to their nine-acre Hudson Shores Park. The project will include shoreline stabilization, management of invasive species and installation of native plantings, construction of ADA-accessible trails, riverfront access improvements, an amphitheater, and installation of new playground equipment and benches.

Award Amount: \$511,700

CENTRAL NEW YORK

Applicant: Village of Cazenovia

CFA Application Number: 81303

Project Name: Cazenovia Component Local Waterfront Revitalization Program

Project Descriptions: The Village and Town of Cazenovia will prepare a joint Component Local Waterfront Revitalization Program for its Cazenovia Lake and Chittenango Creek waterfronts to ensure waterfront development projects will provide a balance between public enjoyment, economic development and preservation of natural resources. The plan will focus on enhancing public waterfront access, revitalizing downtowns, protecting community historic character, improving recreation and tourism amenities.

Award Amount: \$31,125

**New York State Department of State
2018-2019 Environmental Protection Fund
Local Waterfront Revitalization Program Grant Awards**

Applicant: Town of Cicero

CFA Application Number: 84066

Project Name: Final Town of Cicero Local Waterfront Revitalization Program

Project Descriptions: The Town of Cicero will complete a Local Waterfront Revitalization Program (LWRP) for its Hamlet of Brewerton which addresses key issues such as public access, water-related tourism, and improving waterfront and public infrastructure and development of local laws necessary to implement the LWRP. The LWRP will recommend projects to attract new economic investment, increase waterfront accessibility, and better connect the downtown to the waterfront.

Award Amount: \$22,500

Applicant: City of Cortland

CFA Application Number: 82003

Project Name: Tioughnioga River Waterfront Revitalization Program

Project Descriptions: The City of Cortland, in partnership with other riverfront municipalities, will update and adopt the Tioughnioga River Waterfront Revitalization Program (WRP). The WRP will guide land use along the riverfront and focus on increasing public access to the waterfront, strengthening downtowns, establishing a pedestrian trail and blueway trail and protecting natural resources.

Award Amount: \$48,750

Applicant: City of Fulton

CFA Application Number: 81999

Project Name: Pathfinder and Canalview Trail Construction Phase 1

Project Descriptions: The City of Fulton will construct Phase 1 of the Pathfinder Canal Towpath and Canalview Bridge Walk Trails on the Oswego Canal. The project will advance the goals in the City's draft Local Waterfront Revitalization Program by capitalizing on Fulton's canal location to increase recreational opportunities, support tourism and spur economic growth. Construction will include trail paving, kiosks, lighting, site furnishings, landscaping and interpretive panels.

Award Amount: \$750,000

Applicant: City of Oswego

CFA Application Number: 83687

Project Name: Wrights Landing Marina Boater Services Improvements

Project Descriptions: The City of Oswego will design and construct improvements at the city-owned Wright's Landing Marina on Lake Ontario. Improvements will include a new boater services station, renovation of two existing restroom facilities for boaters, and installation of a new pavilion, fire pit, and lighting. This project implements the City's Local Waterfront Revitalization Program and Oswego Waterfront Master Plan by attracting and retaining boaters, visitors and businesses to the waterfront.

Award Amount: \$934,200

**New York State Department of State
2018-2019 Environmental Protection Fund
Local Waterfront Revitalization Program Grant Awards**

Applicant: Town of Skaneateles

CFA Application Number: 80709

Project Name: Skaneateles Watershed Nine Element Plan

Project Descriptions: The Town of Skaneateles, with support from the Central New York Regional Planning and Development Board, will complete a Nine-Element Plan for the Skaneateles Lake Watershed. The Plan will address nutrient loading and Harmful Algal Bloom control as well as identify measures to address water quality issues throughout the entire watershed to sustain Skaneateles' natural resources and the primary drinking water source for City of Syracuse.

Award Amount: \$235,650

Applicant: City of Syracuse

CFA Application Number: 84634

Project Name: City of Syracuse Local Waterfront Revitalization Program

Project Descriptions: The City of Syracuse will prepare a Local Waterfront Revitalization Program (LWRP) in collaboration with Onondaga County to create a resilient framework which will inform the sustainable economic and environmental revitalization of the City's waterfront. The LWRP will include establishing a waterfront revitalization boundary, inventory and analysis, policies, land/water use plans and recommended projects.

Award Amount: \$187,500

FINGER LAKES

Applicant: City of Canandaigua

CFA Application Number: 81562

Project Name: Canandaigua Lake Watershed Management Plan Update

Project Descriptions: The City of Canandaigua and the Canandaigua Lake Watershed Council will update the 2014 Canandaigua Lake Watershed Plan to meet 9-Element Plan criteria. The update will include monitoring harmful algal blooms and water quality to provide a quantitative load reduction goal and develop a systematic approach to mitigate blooms which have caused serious economic consequences from public beach closures, increased water filtration costs, and reduced tourism.

Award Amount: \$90,500

Applicant: Village of Fairport

CFA Application Number: 81918

Project Name: Village of Fairport Local Waterfront Revitalization Program

Project Descriptions: The Village of Fairport will work with residents, businesses and other public and private stakeholders to prepare a Local Waterfront Revitalization Program (LWRP) for its Erie Canal waterfront. The LWRP's vision, policies, and project recommendations will promote business development, enhance public access and recreational facilities, protect water quality, encourage development of underutilized waterfront lands, promote walkability and enhance quality of life.

Award Amount: \$75,000

**New York State Department of State
2018-2019 Environmental Protection Fund
Local Waterfront Revitalization Program Grant Awards**

Applicant: City of Geneva

CFA Application Number: 81963

Project Name: Marina Amenities and Public Beach Design and Construction

Project Descriptions: To implement the Geneva Waterfront Infrastructure Feasibility Study, the City of Geneva will improve public access to Seneca Lake by designing and constructing marina amenities including a canoe/kayak launch, dock utilities and restrooms at Long Pier. The City will also prepare a Beach Feasibility Study to determine the best location for a public beach along the City's shoreline and subsequently complete beach design and construction.

Award Amount: \$924,000

Applicant: Town of Geneva

CFA Application Number: 80874

Project Name: Seneca Lake Watershed Nine Element Plan

Project Descriptions: The Town of Geneva, in partnership with key stakeholders, will prepare a Nine Element Plan for the Seneca Lake Watershed to address deteriorating water quality conditions, high nutrient levels, and occurrences of harmful algal blooms. The Plan will identify the quantity and source of pollutants, determine water quality goals, define pollution reductions needed to meet the goals and recommend actions or best management practices needed improve water quality.

Award Amount: \$270,000

Applicant: Town of Irondequoit

CFA Application Number: 82768

Project Name: Town of Irondequoit Local Waterfront Revitalization Program Amendment

Project Descriptions: The Town of Irondequoit will prepare an amendment to its 1988 Local Waterfront Revitalization Program providing guidance for appropriate development and resource protection along its Lake Ontario, Irondequoit Bay and Genesee River waterfronts. The Amendment will incorporate the Irondequoit Bay Harbor Management Plan, ensure consistency with the Town's Comprehensive Master Plan, express current waterfront redevelopment strategies, address flooding and resiliency and identify priority projects.

Award Amount: \$45,000

Applicant: Village of Sodus Point

CFA Application Number: 80014

Project Name: Village of Sodus Point Local Waterfront Revitalization Program Amendment

Project Descriptions: The Village of Sodus Point will complete an amendment to its 2012 Local Waterfront Revitalization Program. The amendment will be developed through a community based planning process and will identify methods to address physical and economic risks and vulnerabilities associated with severe weather events. Zoning and other local land use regulations will also be updated to increase community resiliency and reduce flood and erosion impacts on residents and businesses.

Award Amount: \$82,500

**New York State Department of State
2018-2019 Environmental Protection Fund
Local Waterfront Revitalization Program Grant Awards**

LONG ISLAND

Applicant: City of Long Beach

CFA Application Number: 84637

Project Name: City of Long Beach Local Waterfront Revitalization Program

Project Descriptions: The City of Long Beach will complete and adopt its Local Waterfront Revitalization Plan (LWRP). The City will revise its draft LWRP to ensure it conforms with all legislative requirements and conduct public outreach events to solicit public input on waterfront issues. The LWRP will include strategies and recommend projects to guide appropriate waterfront development and mitigate climate change impacts to achieve the City's vision of resiliency and sound economic development.

Award Amount: \$90,100

Applicant: Town of North Hempstead

CFA Application Number: 83059

Project Name: Manhasset Bay Water Quality Improvement Plan

Project Descriptions: The Town of North Hempstead, in partnership with the Manhasset Bay Protection Committee, will update the 1999 Water Quality Improvement Plan for Manhasset Bay, a vital economic resource to the community. The Plan will identify major pollution sources, including pathogens, and develop projects recommendations and management actions to eliminate these sources with a focus on how climate change and habitat loss may impact the bay.

Award Amount: \$125,000

Applicant: Town of Smithtown

CFA Application Number: 82411

Project Name: Stormwater Management Feasibility Study for Cordwood Path and Park

Project Descriptions: The Town of Smithtown, in collaboration with the Villages of Head of Harbor and Nissequogue, will advance goals of their Local Waterfront Revitalization Programs to protect water quality of Stony Brook Harbor by preparing a Stormwater Management Feasibility Study for Cordwood Path and Park. The Study will provide strategies to improve stormwater management and erosion control and develop stormwater control concepts including green infrastructure and improvements to drainage infrastructure.

Award Amount: \$72,375

Applicant: Town of Southampton

CFA Application Number: 82292

Project Name: Town of Southampton Riverside Maritime Trail

Project Descriptions: The Town of Southampton will design and build a Riverside Maritime Trail Peconic River Walk on parkland along the south shore of the Peconic River. Work will include construction of approximately 2,400 linear feet of walking paths and boardwalks as well as removal of invasive species. The project will advance the Town's Coastal Resources and Water Protection Plan by improving waterfront access, protecting natural resources and supporting downtown revitalization.

Award Amount: \$387,484

**New York State Department of State
2018-2019 Environmental Protection Fund
Local Waterfront Revitalization Program Grant Awards**

MID-HUDSON

Applicant: Town of Esopus

CFA Application Number: 80656

Project Name: Town of Esopus Local Waterfront Revitalization Program Amendment

Project Descriptions: The Town of Esopus will update their 1987 LWRP to establish a long term strategy for the continued protection of its Hudson River and Rondout Creek waterfronts. The LWRP update will identify policies and projects to revitalize hamlets, increase flood resiliency, improve waterfront access and connectivity, establish a marketing campaign for improved tourism and economic development and consider expanding the LWRP boundary to include the towns entire Rondout Creek and Wallkill River waterfronts.

Award Amount: \$75,688

Applicant: Village of Haverstraw

CFA Application Number: 83017

Project Name: Village of Haverstraw Hudson River Shoreline Improvements

Project Descriptions: The Village of Haverstraw will design and construct shoreline improvements adjacent to the former Chair Factory site along the Hudson River and Bowline Pond. The shoreline improvements include shoreline resilient designs to protect the site from erosion and allow for mixed-use, recreation and tourism based development. This project advances the Village's Local Waterfront Revitalization Program by supporting redevelopment of this underutilized waterfront property.

Award Amount: \$262,500

Applicant: Village of Nyack

CFA Application Number: 83399

Project Name: Memorial Park, Village Marina Connection & Waterfront Pathway

Project Descriptions: The Village of Nyack, implementing its Local Waterfront Revitalization Program, will design and construct a walkway along the Hudson River connecting Memorial Park to the Village Marina. The walkway and related streetscaping improvements will link the Village's historic downtown to its waterfront and enhance waterfront access along the river. The Village will partner with a private developer who will contribute funding toward continuing the pedestrian pathway north of the marina.

Award Amount: \$401,700

Applicant: Village of Piermont

CFA Application Number: 83471

Project Name: Zoning and Building Code Update

Project Descriptions: The Village of Piermont will update their local zoning and building code to incorporate climate change resiliency and sustainability policies. The update will ensure the Village has the tools necessary to implement its Local Waterfront Revitalization Program and mitigate impacts of projected sea level rise on the Village's Hudson River shoreline and its incomparable shoreline assets.

Award Amount: \$60,000

**New York State Department of State
2018-2019 Environmental Protection Fund
Local Waterfront Revitalization Program Grant Awards**

Applicant: Village of Tivoli

CFA Application Number: 82208

Project Name: Shoreline Stabilization of Tivoli Waterfront

Project Descriptions: The Village of Tivoli will stabilize the shoreline along its Hudson River waterfront. This project will reduce future erosion with bioengineering and plantings to preserve riverfront access leading to the future development of a waterfront park. The project advances the Village's Local Waterfront Revitalization Program and further their vision to achieve public access to the Hudson River.

Award Amount: \$343,500

Applicant: Village of Tivoli

CFA Application Number: 83373

Project Name: Village of Tivoli Local Waterfront Revitalization Program Amendment

Project Descriptions: The Village of Tivoli will update their 1991 Local Waterfront Revitalization Program to guide development and land use along its Hudson River waterfront. The update will identify projects to attract and retain residents, encourage economic growth, address resiliency and climate change, and improve connections to the Hudson River.

Award Amount: \$49,875

Applicant: Westchester County

CFA Application Number: 81185

Project Name: Bronx River Watershed Management Plan Update

Project Descriptions: Westchester County in partnership with the Bronx River Watershed Alliance will undertake a collaborative, multi-jurisdictional planning process to update the Bronx River Intermunicipal Watershed Plan incorporating a climate resilience strategy. The updated plan will identify critical management strategies and recommendations that will lead to a healthier and more resilient watershed for residents and wildlife.

Award Amount: \$245,428

MOHAWK VALLEY

Applicant: City of Gloversville

CFA Application Number: 80571

Project Name: City of Gloversville Local Waterfront Revitalization Program

Project Descriptions: The City of Gloversville will develop a Local Waterfront Revitalization Program to guide future development along the Cayadutta Creek and downtown Gloversville. The LWRP will focus on developing the City's waterfront resources in a sustainable manner, creating recreational opportunities, and preserving historic architecture and will serve as a resource to the City, developers, residents, and private property owners as they invest in downtown Gloversville and its surrounding neighborhoods.

Award Amount: \$78,000

**New York State Department of State
2018-2019 Environmental Protection Fund
Local Waterfront Revitalization Program Grant Awards**

Applicant: Village of Ilion

CFA Application Number: 79886

Project Name: Steele Creek Bank Stabilization and Floodplain Restoration Design

Project Descriptions: The Village of Ilion will design a reconfiguration of 2,030 linear feet of Steele Creek to increase flood flow conveyance capacity and reduce flooding within the village. The project will implement the Mohawk River Watershed Management Plan and include bank and floodplain restoration, buffer installation and weir removal. It will protect public infrastructure and private housing, providing flood mitigation, recreational trails, climate resilience and stormwater management.

Award Amount: \$277,500

Applicant: Montgomery County

CFA Application Number: 81205

Project Name: Montgomery County Kayak Share Project

Project Descriptions: Montgomery County will work cooperatively with Fonda, St. Johnsville, Canajoharie, and Amsterdam to create recreational opportunities along the Mohawk River by installing long and short-term kayak storage and an ADA accessible floating launch. The project will also include the development of the Ticket to Paddle Program; Water Trail Ambassadors Program and a Water Trail Signage Plan for Montgomery County. This project will further implementation of the Amsterdam and Western Montgomery LWRPs.

Award Amount: \$148,740

Applicant: Village of Northville

CFA Application Number: 81691

Project Name: Village of Northville Local Waterfront Revitalization Program

Project Descriptions: The Village of Northville will develop a Local Waterfront Revitalization Program to establish community goals and strategies for future development along Northville Lake and Great Sacandaga Lake. The LWRP will focus on developing the Village's waterfront resources in a sustainable manner, creating recreational opportunities, preserving historic architecture and redevelopment of underutilized lands in downtown Northville.

Award Amount: \$72,750

Applicant: City of Rome

CFA Application Number: 81747

Project Name: James Street Canal Overlook

Project Descriptions: The City of Rome will design and build an overlook on the Erie Canal at South James, implementing the City's Urban Design Plan and its Brownfield Opportunity Area Plan. The overlook will feature fishing access, shade trees, seating, wayfinding and signage. The project is the first phase of the City's planned waterfront improvements stretching eastward to Erie Boulevard.

Award Amount: \$502,000

**New York State Department of State
2018-2019 Environmental Protection Fund
Local Waterfront Revitalization Program Grant Awards**

Applicant: Village of Schoharie

CFA Application Number: 81661

Project Name: Schoharie Creek Trail and Public Access Improvements

Project Descriptions: The Village of Schoharie will implement its Schoharie Creek Waterfront Recreational Assets Plan by constructing a 1.75-mile trail along the creekside with connections to Main Street businesses, creating two new parking lots, and developing the Village's first canoe/kayak launch. The new launch will create a 2-mile blueway trail between the Village and Central Bridge.

Award Amount: \$506,500

NEW YORK CITY

Applicant: New York City Department of Parks and Recreation

CFA Application Number: 80027

Project Name: Randall's Island Living Shoreline Construction

Project Descriptions: The New York City Department of Parks and Recreation will construct a two-acre park along the northwestern shore of Randall's Island. The park will include a living shoreline adaptable to sea level rise, native plantings, expanded picnic area and a multi-use path connecting to the bikeway around the island perimeter. The project implements the City's Waterfront Revitalization Program by expanding public access, increasing habitat diversity and making the coastline more resilient.

Award Amount: \$750,000

Applicant: New York City Department of Parks and Recreation

CFA Application Number: 80864

Project Name: Harbor Brook Wetland Restoration Design

Project Descriptions: The New York City (NYC) Department of Parks & Recreation will implement the NYC Waterfront Revitalization Program by finalizing the designs for coastal habitat restoration along Harbor Brook, one of the only streams remaining on the industrialized North Shore of Staten Island, by the Snug Harbor Cultural Center. Designs will include salt marsh restoration, tidal channel improvement, upland forest enhancement, increased public viewpoints and green infrastructure to manage stormwater.

Award Amount: \$250,000

Applicant: New York City Department of City Planning

CFA Application Number: 83055

Project Name: NYC Comprehensive Waterfront Plan Update

Project Descriptions: The NYC Department of City Planning (DCP) will launch an update of the NYC Comprehensive Waterfront Plan. DCP will conduct extensive public outreach and develop communication materials to promote awareness of waterfront issues and solicit input from stakeholders. The update will provide a strategic vision for public access, coastal resilience, habitat restoration, water quality, water-based commerce and serve as a basis for any future update to the NYC Waterfront Revitalization Program.

Award Amount: \$424,500

**New York State Department of State
2018-2019 Environmental Protection Fund
Local Waterfront Revitalization Program Grant Awards**

NORTH COUNTRY

Applicant: Village of Malone

CFA Application Number: 83015

Project Name: Malone Memorial Recreation Park Improvements

Project Descriptions: The Village of Malone will design and construct improvements to the Memorial Recreation Park along the Salmon River, implementing the Village and Town of Malone Local Waterfront Revitalization Program and the Memorial Recreation Park Master Plan. Improvements will enhance public access by expanding and developing vehicle circulation and pedestrian safety.

Award Amount: \$130,000

Applicant: Town of Minerva

CFA Application Number: 81604

Project Name: Town of Minerva and Willsboro Local Waterfront Revitalization Programs and Bulwagga Bay Beach and Campground Remediation Plan

Project Descriptions: The Towns of Minerva and Town of Willsboro will prepare Local Waterfront Revitalization Programs to evaluate existing conditions, guide appropriate development and recommend revitalization projects that will attract and retain residents, visitors and businesses, support tourism and improve public access to the waterfront. The Town of Moriah will prepare a remediation plan to address erosion threatening recreational use of the municipal Bulwagga Bay Beach and Campground along Lake Champlain.

Award Amount: \$128,174

Applicant: City of Plattsburgh

CFA Application Number: 81138

Project Name: City of Plattsburgh Local Waterfront Revitalization Program and Comprehensive Plan Update

Project Descriptions: The City of Plattsburgh will advance community planning by completing their Draft Local Waterfront Revitalization Program for their Lake Champlain and Saranac River waterfronts as well as updating their comprehensive plan and zoning law. The project will also catalyze the City's Downtown Revitalization Initiative Strategic Investment Plan by developing an Request For Proposals to consider market evaluation of the Dock Street Waterfront District and infrastructure improvements.

Award Amount: \$125,366

Applicant: Village of Tupper Lake

CFA Application Number: 80728

Project Name: Local Waterfront Revitalization Program Development and Revitalization Advancement

Project Descriptions: The Village of Tupper Lake will prepare a Local Waterfront Revitalization Program (LWRP) and the Villages of Saranac Lake and Malone will update their LWRPs to guide appropriate waterfront development and investment. To advance LWRP goals of improving public access and supporting tourism, all three villages will install improvements at local parks and the Village of Malone will install downtown streetscape enhancements.

Award Amount: \$454,740

**New York State Department of State
2018-2019 Environmental Protection Fund
Local Waterfront Revitalization Program Grant Awards**

SOUTHERN TIER

Applicant: Broome County

CFA Application Number: 82080

Project Name: Broome County River Trails Plan and Intermunicipal Waterfront Public Access Plan

Project Descriptions: Broome County will update the Four Rivers: An Intermunicipal Waterfront Access Plan to revise and add information related to the boundary, inventory and analysis, policies, projects and programs to meet the requirements of a Local Waterfront Revitalization Program. A River Trails Plan will also be developed including a signage plan and design guide, a services assessment of river recreation support services, a continuous navigability assessment of hazard locations, and a river guide.

Award Amount: \$150,000

Applicant: Town of Hector

CFA Application Number: 81481

Project Name: Town of Hector Waterfront Revitalization Program

Project Descriptions: The Town of Hector will develop a local Waterfront Revitalization Program for its Seneca Lake waterfront. The development of the LWRP will focus on guiding future development, protecting water quality, enhancing access to recreation, addressing watershed management issues, and promoting economic revitalization.

Award Amount: \$82,500

Applicant: Village of Sidney

CFA Application Number: 82266

Project Name: Village of Sidney Local Waterfront Revitalization Program

Project Descriptions: The Village of Sidney will prepare a Local Waterfront Revitalization Program (LWRP) to guide resilient and sustainable growth along its Susquehanna waterfront and downtown. LWRP preparation will include an update of the zoning code and other land management tools to ensure future development will advance the Village's goal of promoting mixed-use, age-friendly, compact, flood resistant development as well as recommend projects to achieve waterfront revitalization goals.

Award Amount: \$100,000

Applicant: Village of Whitney Point

CFA Application Number: 80539

Project Name: Village of Whitney Point Local Waterfront Revitalization Program and Gateway Public Access Improvements

Project Descriptions: The Village of Whitney Point will develop a Local Waterfront Revitalization Program to guide development along the Tioughnioga River. To immediately increase waterfront accessibility and implement the Four Rivers - An Intermunicipal Waterfront Public Access Plan for Broome County, the Village will also design and construct improvements at the intersection of Rt. 79 and US 11, including crosswalks, a river overlook, landscaping, parking area, clock fixture and a path to access the boat launch.

Award Amount: \$565,000

**New York State Department of State
2018-2019 Environmental Protection Fund
Local Waterfront Revitalization Program Grant Awards**

WESTERN NEW YORK

Applicant: Town of Amherst

CFA Application Number: 82916

Project Name: Town of Amherst Local Waterfront Revitalization Program

Project Descriptions: The Town of Amherst will prepare a Local Waterfront Revitalization Program (LWRP) for their waterfront along Ellicott and Tonawanda Creeks. The LWRP will identify local conditions, establish policies and propose projects to address public waterfront access and recreation, water quality, habitat protection, flooding and erosion, public investment and economic revitalization.

Award Amount: \$75,000

Applicant: Chautauqua County

CFA Application Number: 79986

Project Name: Chautauqua County Kayak Launches

Project Descriptions: Chautauqua County, in partnership with the City of Dunkirk, Village of Silver Creek, Towns of Hanover and Westfield and Chautauqua Watershed Conservancy, will install five ADA accessible kayak launches. This project will advance implementation of Local Waterfront Revitalization Program goals by increasing water-dependent recreation and public access to Chautauqua Lake and Lake Erie.

Award Amount: \$73,155

Applicant: Town of Evans

CFA Application Number: 82129

Project Name: Sturgeon Point Marina Repairs

Project Descriptions: The Town of Evans will implement its Local Waterfront Revitalization Program by designing and constructing repairs to the western breakwater which protects the Sturgeon Point Marina. The walkway atop the breakwall will also be repaired to reestablish safe public access. This project will guarantee the safe operation of this popular recreational resource, which provides boat dockage and public access to the waters and fisheries in Lake Erie and opens the door for future marina expansion.

Award Amount: \$1,161,225

Applicant: Town of Hamburg

CFA Application Number: 83531

Project Name: Town of Hamburg Marina Feasibility Study

Project Descriptions: The Town of Hamburg will develop a feasibility study for revitalization of its existing boat launch at Town Park and surrounding areas. This project will advance the Town's Local Waterfront Revitalization Program goal of improving recreational boating amenities along Lake Erie. Study components will include: evaluation of sedimentation, review of existing and historical shoreline, coastal modeling, marina feasibility, conceptual designs, market study, and environmental impact assessment.

Award Amount: \$85,000

**New York State Department of State
2018-2019 Environmental Protection Fund
Local Waterfront Revitalization Program Grant Awards**

Applicant: Village of Lakewood

CFA Application Number: 82727

Project Name: Lowe Park Green Infrastructure Improvements

Project Descriptions: The Village of Lakewood will design and construct green stormwater infrastructure improvements at Lowe Park, implementing the Chautauqua Lake Local Waterfront Revitalization Program and Watershed Management Plan. The project will reduce nutrient inputs entering Chautauqua Lake which contribute to excessive aquatic vegetation growth and threaten its recreational use. Park improvements will also include a pavilion, bike shelter, pedestrian bridge, interpretive panels, plantings and rain gardens.

Award Amount: \$255,951

Applicant: City of Niagara Falls

CFA Application Number: 82923

Project Name: City of Niagara Falls Local Waterfront Revitalization Program

Project Descriptions: The City of Niagara Falls will prepare a Local Waterfront Revitalization Program (LWRP) for its Niagara River waterfront. The LWRP will guide appropriate waterfront development and focus on strengthening tourism, economic development as well as protection of natural resources and cultural assets. To advance the City's waterfront vision, preliminary designs for recommended revitalization projects will be developed to enable prompt implementation.

Award Amount: \$493,000

Applicant: Town of Sheridan

CFA Application Number: 82971

Project Name: Sheridan Bay Park Improvements

Project Descriptions: The Town of Sheridan will design and construct improvements to Sheridan Bay Park, on the Lake Erie Waterfront. The improvements will consist of the completion of drainage on the northern and eastern sides for the park, construction of park amenities, including a pavilion and ADA accessibility upgrades to the bathhouse for users with impaired physical mobility, and bathhouse renovation. This project supports the Town's Local Waterfront Revitalization Program under development.

Award Amount: \$90,750

Applicant: Town of Somerset

CFA Application Number: 80944

Project Name: Waterfront Park Feasibility Study and Master Plan

Project Descriptions: The Town of Somerset will investigate the feasibility of utilizing a brownfield site along Lake Ontario as a public park. The Study will assess site constraints and opportunities, evaluate potential environmental issues and result in Master Plan for park development. The project will advance the Town's Local Waterfront Revitalization Program goals of creating new public waterfront access and providing recreational opportunities for visitors and residents.

Award Amount: \$36,450
