NEW YORK STATE DEPARTMENT OF STATE  
COASTAL MANAGEMENT PROGRAM

NYS Department of State  
Planning and Development

Federal Consistency Assessment Form

An applicant, seeking a permit, license, waiver, certification or similar type of approval from a federal agency which is subject to the New York State Coastal Management Program (CMP), shall complete this assessment form for any proposed activity that will occur within and/or directly affect the State's Coastal Area. This form is intended to assist an applicant in certifying that the proposed activity is consistent with New York State's CMP as required by U.S. Department of Commerce regulations (15 CFR 930.57). It should be completed at the time when the federal application is prepared. The Department of State will use the completed form and accompanying information in its review of the applicant's certification of consistency.

A. **APPLICANT** (please print)

1. Name: Karen Davidson
2. Address: 4 Cedar Drive, Hampton Bays, NY 11946
3. Telephone: Area Code ( ) 917-553-0935

B. **PROPOSED ACTIVITY:**

1. Brief description of activity:

Applicant proposes to construct a 4'x80' fixed dock utilizing "Thru-Flow" decking, a 3'x14' ramp and a 6'x20' chocked float dock secured by 4 piles.

2. Purpose of activity:

Private recreational docking

3. Location of activity:

<u>Suffolk</u>	<u>Hampton Bays</u>	<u>4 Cedar Drive</u>
County	City, Town, or Village	Street or Site Description

4. Type of federal permit/license required: USDOA

5. Federal application number, if known: Unknown

6. If a state permit/license was issued or is required for the proposed activity, identify the state agency and provide the application or permit number, if known:

N.Y.S.D.E.C., application number unknown

C. **COASTAL ASSESSMENT** Check either "YES" or "NO" for each of these questions. The numbers following each question refer to the policies described in the CMP document (see footnote on page 2) which may be affected by the proposed activity.

1. Will the proposed activity result in any of the following: YES/NO
- a. Large physical change to a site within the coastal area which will require the preparation of an environmental impact statement? (11, 22, 25, 32, 37, 38, 41, 43)
  - b. Physical alteration of more than two acres of land along the shoreline, land under water or coastal waters? (2, 11, 12, 20, 28, 35, 44)
  - c. Revitalization/redevelopment of a deteriorated or underutilized waterfront site? (1)
  - d. Reduction of existing or potential public access to or along coastal waters? (19, 20)
  - e. Adverse effect upon the commercial or recreational use of coastal fish resources? (9,10)
  - f. Siting of a facility essential to the exploration, development and production of energy resources in coastal waters or on the Outer Continental Shelf? (29)
  - g. Siting of a facility essential to the generation or transmission of energy? (27)
  - h. Mining, excavation, or dredging activities, or the placement of dredged or fill material in coastal waters? (15, 35)
  - i. Discharge of toxics, hazardous substances or other pollutants into coastal waters? (8, 15, 35)
  - j. Draining of stormwater runoff or sewer overflows into coastal waters? (33)
  - k. Transport, storage, treatment, or disposal of solid wastes or hazardous materials? (36, 39)
  - l. Adverse effect upon land or water uses within the State's small harbors? (4)
2. Will the proposed activity affect or be located in, on, or adjacent to any of the following: YES/NO
- a. State designated freshwater or tidal wetland? (44)
  - b. Federally designated flood and/or state designated erosion hazard area? (11, 12, 17)
  - c. State designated significant fish and/or wildlife habitat? (7)
  - d. State designated significant scenic resource or area? (24)
  - e. State designated important agricultural lands? (26)
  - f. Beach, dune or Barrier Island? (12)
  - g. Major ports of Albany, Buffalo, Ogdensburg, Oswego or New York? (3)
  - h. State, county, or local park? (19, 20)
  - i. Historic resource listed on the National or State Register of Historic Places? (23)
3. Will the proposed activity require any of the following: YES/NO
- a. Waterfront site? (2, 21, 22)
  - b. Provision of new public services or infrastructure in undeveloped or sparsely populated sections of the coastal area? (5)
  - c. Construction or reconstruction of a flood or erosion control structure? (13, 14, 16)
  - d. State water quality permit or certification? (30, 38, 40)
  - e. State air quality permit or certification? (41, 43)
4. Will the proposed activity occur within and/or affect an area covered by a State-approved local waterfront revitalization program, or State-approved regional coastal management program? (see policies in program document\*)

**D. ADDITIONAL STEPS**

1. If all of the questions in Section C are answered "NO", then the applicant or agency shall complete Section E and submit the documentation required by Section F.
2. If any of the questions in Section C are answered "YES", then the applicant or agent is advised to consult the CMP, or where appropriate, the local waterfront revitalization program document\*. The proposed activity must be analyzed in more detail with respect to the applicable state or local coastal policies. On a separate page(s), the applicant or agent shall: (a) identify, by their policy numbers, which coastal policies are affected by the activity, (b) briefly assess the effects of the activity upon the policy; and, (c) state how the activity is consistent with each policy. Following the completion of this written assessment, the applicant or agency shall complete Section E and submit the documentation required by Section F.

**E. CERTIFICATION**

The applicant or agent must certify that the proposed activity is consistent with the State's CMP or the approved local waterfront revitalization program, as appropriate. If this certification cannot be made, the proposed activity shall not be undertaken. If this certification can be made, complete this Section.

"The proposed activity complies with New York State's approved Coastal Management Program, or with the applicable approved local waterfront revitalization program, and will be conducted in a manner consistent with such program."

Applicant/Agent's Name: Glenn E. Just - JMO Environmental Consulting

Address: P.O. Box 447, Quogue, NY 11959-0447

Telephone: Area Code ( ) 631-653-0607

Applicant/Agent's Signature:  Date: 4/3/20

**F. SUBMISSION REQUIREMENTS**

1. The applicant or agent shall submit the following documents to the **New York State Department of State, Office of Planning and Development, Attn: Consistency Review Unit, One Commerce Plaza-Suite 1010, 99 Washington Avenue, Albany, New York 12231.**

- a. Copy of original signed form.
- b. Copy of the completed federal agency application.
- c. Other available information which would support the certification of consistency.

2. The applicant or agent shall also submit a copy of this completed form along with his/her application to the federal agency.

3. If there are any questions regarding the submission of this form, contact the Department of State at (518) 474-6000.

\*These state and local documents are available for inspection at the offices of many federal agencies, Department of environmental Conservation and Department of State regional offices, and the appropriate regional and county planning agencies. Local program documents are also available for inspection at the offices of the appropriate local government.

Response to Coastal Policies for Karen Davidson  
4 Cedar Drive, Hampton Bays, NY

F.3. The project is located on Shinnecock Bay which is a New York State designated tidal wetlands and therefore must be consistent with this Policy. The project has been designed to meet or exceed all criteria and policies of the New York State Department of Environmental Conservation under Article 25 (Tidal Wetlands) of the Environmental Conservation Law as well as the Board of Town Trustees of the Town of Southampton for the construction of docking facilities. The applicant proposes to utilize non-treated timber in the construction, "GreenHart" piles which are favorable to the N.Y.S.D.E.C. and required by the Southampton Town Trustee will be utilized. The Applicant also proposes to utilize "Thru-Flow" decking which is also required by both of these regulatory agencies. It is felt that this project is consistent to this Policy.

Since the project is located adjacent to a State designated significant fish and/or wildlife habitat (Shinnecock Bay) it therefore must be consistent to this Policy.

The proposed dock and piles will not change the volume or rate of flow of Shinnecock Bay. Nor shall it result in an increase of scouring or sedimentation. The project as proposed shall not create a change of the chemical parameters or biological parameters of Shinnecock Bay. There shall be a one time installation of the proposed piles and at that time there will be a temporary disturbance at the site. As far as the physical parameters are concerned, there shall be no change in circulation, flushing rates, tidal amplitude, water temperature, depth, morphology, substrate type, vegetation, structure erosion or sedimentation rates. The

JOINT APPLICATION FORM

For Permits for activities affecting streams, waterways, waterbodies, wetlands, coastal areas, sources of water, and endangered and threatened species.

You must separately apply for and obtain Permits from each involved agency before starting work. Please read all instructions.

1. Applications To:

>NYS Department of Environmental Conservation [checked] Check here to confirm you sent this form to NYSDEC.

- Check all permits that apply: [ ] Stream Disturbance, [ ] Excavation and Fill in Navigable Waters, [ ] Docks, Moorings or Platforms, [ ] Dams and Impoundment Structures, [ ] 401 Water Quality Certification, [ ] Freshwater Wetlands, [ ] Tidal Wetlands, [ ] Wild, Scenic and Recreational Rivers, [ ] Coastal Erosion Management, [ ] Water Withdrawal, [ ] Long Island Well, [ ] Incidental Take of Endangered / Threatened Species

>US Army Corps of Engineers [checked] Check here to confirm you sent this form to USACE.

Check all permits that apply: [ ] Section 404 Clean Water Act, [ ] Section 10 Rivers and Harbors Act

Is the project Federally funded? [ ] Yes [checked] No

If yes, name of Federal Agency: [ ]

General Permit Type(s), if known: [ ] [ ]

Preconstruction Notification: [ ] Yes [checked] No

>NYS Office of General Services [ ] Check here to confirm you sent this form to NYSOGS.

Check all permits that apply:

- [ ] State Owned Lands Under Water, [ ] Utility Easement (pipelines, conduits, cables, etc.), [ ] Docks, Moorings or Platforms

>NYS Department of State [checked] Check here to confirm you sent this form to NYSDOS.

Check if this applies: [ ] Coastal Consistency Concurrence

Project Location Coordinates: Enter Latitude and Longitude in degrees, minutes, seconds:  
 Latitude: 40 ° 52 ' 27.768 N " Longitude: -72 ° 29 ' 53.916 W "

**6. Project Description:** Provide the following information about your project. Continue each response and provide any additional information on other pages. **Attach plans on separate pages.**

a. Purpose of the proposed project:  
 Private recreational docking

b. Description of current site conditions:  
 Single family dwelling, associated sanitary system, drive, bulkhead, etc

c. Proposed site changes:  
 Proposed dock assembly consisting of a 4'x80' fixed dock utilizing "Thru-Flow" decking, a 3'x14' ramp and a 6'x20' chocked float dock secured by 4 piles

d. Type of structures and fill materials to be installed, and quantity of materials to be used (e.g., square feet of coverage, cubic yards of fill material, structures below ordinary/mean high water, etc.):

e. Area of excavation or dredging, volume of material to be removed, location of dredged material placement:  
 n/a

f. Is tree cutting or clearing proposed?  Yes If Yes, explain below.  No  
 Timing of the proposed cutting or clearing (month/year):  
 Number of trees to be cut: Acreage of trees to be cleared:

g. Work methods and type of equipment to be used:

Crane on barge

h. Describe the planned sequence of activities:

Install piles, stringers and decking

i. Pollution control methods and other actions proposed to mitigate environmental impacts:

n/a

j. Erosion and silt control methods that will be used to prevent water quality impacts:

n/a

k. Alternatives considered to avoid regulated areas. If no feasible alternatives exist, explain how the project will minimize impacts:

n/a

l. Proposed use:  Private  Public  Commercial

m. Proposed Start Date:  Estimated Completion Date:

n. Has work begun on project?  Yes If Yes, explain below.  No

o. Will project occupy Federal, State, or Municipal Land?  Yes If Yes, explain below.  No

Southampton Town bay bottom

p. List any previous DEC, USACE, OGS or DOS Permit / Application numbers for activities at this location:

N.Y.S.D.E.C. 1-4736-08583/00001

NYSDOS F-2017-0487  
USACOE NAN-2017-00649-EGR

q. Will this project require additional Federal, State, or Local authorizations, including zoning changes?

Yes If Yes, list below.  No

Southampton Town Trustees, NYSDOS and USACOE. No proposed zoning changes.

**7. Signatures.**

Applicant and Owner (If different) must sign the application.

Append additional pages of this Signature section if there are multiple Applicants, Owners or Contact/Agents.

I hereby affirm that information provided on this form and all attachments submitted herewith is true to the best of my knowledge and belief.

Permission to Inspect - I hereby consent to Agency inspection of the project site and adjacent property areas. Agency staff may enter the property without notice between 7:00 am and 7:00 pm, Monday - Friday. Inspection may occur without the owner, applicant or agent present. If the property is posted with "keep out" signs or fenced with an unlocked gate, Agency staff may still enter the property. Agency staff may take measurements, analyze site physical characteristics, take soil and vegetation samples, sketch and photograph the site. I understand that failure to give this consent may result in denial of the permit(s) sought by this application.

False statements made herein are punishable as a Class A misdemeanor pursuant to Section 210.45 of the NYS Penal Law. Further, the applicant accepts full responsibility for all damage, direct or indirect, of whatever nature, and by whomever suffered, arising out of the project described herein and agrees to indemnify and save harmless the State from suits, actions, damages and costs of every name and description resulting from said project. In addition, Federal Law, 18 U.S.C., Section 1001 provides for a fine of not more than \$10,000 or imprisonment for not more than 5 years, or both where an applicant knowingly and willingly falsifies, conceals, or covers up a material fact; or knowingly makes or uses a false, fictitious or fraudulent statement.

## ENVIRONMENTAL QUESTIONNAIRE

*This is intended to supplement ENG Form 4345, Application for Department of the Army Permit, or the Joint Application for Permit used in the State of New York. Please provide complete answers to all questions below which are relevant to your project. Any answers may be continued on separate sheet(s) of paper to be attached to this form.*

### **PRIVACY ACT STATEMENT**

*The purpose of this form is to provide the Corps of Engineers with basic information regarding your project. This information will be used to facilitate evaluation of your permit application and for public dissemination as required by regulation. Failure to provide complete information may result in your application being declared incomplete for processing, thereby delaying processing of your application.*

### GENERAL--APPLICABLE TO ALL PROJECTS

**1. Explain the need for, and purpose of, the proposed work.**

Private recreational docking

**2. Provide the names and addresses of property owners adjacent to your work site (if not shown on the application form or project drawings).**

Dennis & Doreen Farrell, 6 Cedar Drive, Hampton Bays, NY 11946

*(Please note that depending upon the nature and extent of your project, you may be requested to provide the names and addresses of additional property owners proximate to your project site to ensure proper coordination.)*

**3. Photographs of the project site should be submitted. For projects in tidal areas, photographs of the waterway vicinity should be taken at low tide. Using a separate copy of your plan view, indicate the location and direction of each photograph as well as the date and time at which the photograph was taken. Provide a sufficient number of photographs so as to provide a clear understanding of conditions on and proximate to your project site.** Enclosed

**4. Provide a copy of any environmental impact statement, or any other environmental report which was prepared for your project.**

Enclosed

5. Provide a thorough discussion of alternatives to your proposal. This discussion should include, but not necessarily be limited to, the "no action" alternative and alternative(s) resulting in less disturbance to waters of the United States. For filling projects in waters of the United States, including wetlands, your alternatives discussion should demonstrate that there are no practicable alternatives to your proposed filling and that your project meets with current mitigation policy (i.e. avoidance, minimization and compensation). *No alternatives*

### DREDGING PROJECTS

Answer the following if your project involves dredging.

1. Indicate the estimated volume of material to be dredged and the depth (below mean low water) to which dredging would occur. Would there be overdepth dredging? *n/a*

2. You can apply for a ten-year permit for maintenance dredging. If you wish to apply for a ten-year permit, please provide the number of additional dredging events during the ten-year life of the permit and the amount of material to be removed during future events. *n/a*

3. Indicate of your drawings the dewatering area (if applicable) and disposal site for the dredged material (except landfill sites). Submit a sufficient number of photographs of the dewatering and disposal sites as applicable so as to provide a clear indication of existing conditions. For ten-year maintenance dredging permits, indicate the dewatering/disposal sites for future dredging events, if known. *n/a*

4. Describe the method of dredging (i.e. clamshell, dragline, etc.) and the expected duration of dredging. *n/a*

5. Indicate the physical nature of the material to be dredged (i.e. sand, silt, clay, etc.) and provide estimated percentages of the various constituents if available. For beach nourishment projects, grain size analysis data is required. *n/a*

6. Describe the method of dredged material containment (i.e. hay bales, embankment, bulkhead, etc.) and whether return flow from the dewatering/disposal site would reenter any waterway. Also indicate if there would be any barge overflow.

nb

### MOORING FACILITIES

Answer the following if your project includes the construction or rehabilitation of recreational mooring facilities.

1. It is generally recommended that any fixed piers and walk ramps be limited to four feet in width, and that floats be limited to eight feet in width and rest at least two feet above the waterway bottom at mean low water. Terminal floats at private, non-commercial facilities should be limited to 20 feet in length. If you do not believe your proposal can meet with these recommendations, please provide the reason(s).

Proposed project meets recommendations

2. Using your plan view, show to scale the location(s), position(s) and size(s) (including length, beam and draft) of vessel(s) to be moored at the proposed facility, including those of transient vessel(s) if known. Unknown

3. For commercial mooring sites such as marinas, indicate the capacity of the facility and indicate on the plan view the location(s) of any proposed fueling and/or sewage pumpout facilities. If pumpout facilities are not planned, please discuss the rationale below and indicate the distance to the nearest available pumpout station. n/a

4. Indicate on your plan view the distance to adjacent marine structures, if any are proximate and show the locations and dimensions of such structures. Enclosed

**5. Discuss the need for wave protection at the proposed facility. Please be advised that if a permit is issued, you would be required to recognize that the mooring facility may be subject to wave action from wakes of passing vessels, whose operations would not be required to be modified. Issuance of a permit would not relieve you of ensuring the integrity of the authorized structure(s) and the United States would not be held responsible for damages to the structure(s) and vessel(s) moored thereto from wakes from passing vessels.** n/a

### **BULKHEADING/BANK STABILIZATION/FILLING ACTIVITIES**

**Answer the following if your project includes construction of bulkheading (also retaining walls and seawalls) with backfill, filling of waters/wetlands, or any other bank stabilization fills such as riprap, revetments, gabions, etc.**

**1. Indicate the total volume of fill (including backfill behind a structure such as a bulkhead) as well as the volume of fill to be placed into waters of the United States. The amount of fill in waters of the United States can be determined by calculating the amount of fill to be placed below the plane of spring high tide in tidal areas and below ordinary high water in non-tidal areas.** n/a

**2. Indicate the source(s) and type(s) of fill material.**

n/a

**3. Indicate the method of fill placement (i.e. by hand, bulldozer, crane, etc.). Would any temporary fills be required in waterways or wetlands to provide access for construction equipment? If so, please indicate the area of such waters and/or wetlands to be filled, and show on the plan and sectional views.** n/a

# Short Environmental Assessment Form

## Part 1 - Project Information

### Instructions for Completing

**Part 1 – Project Information.** The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

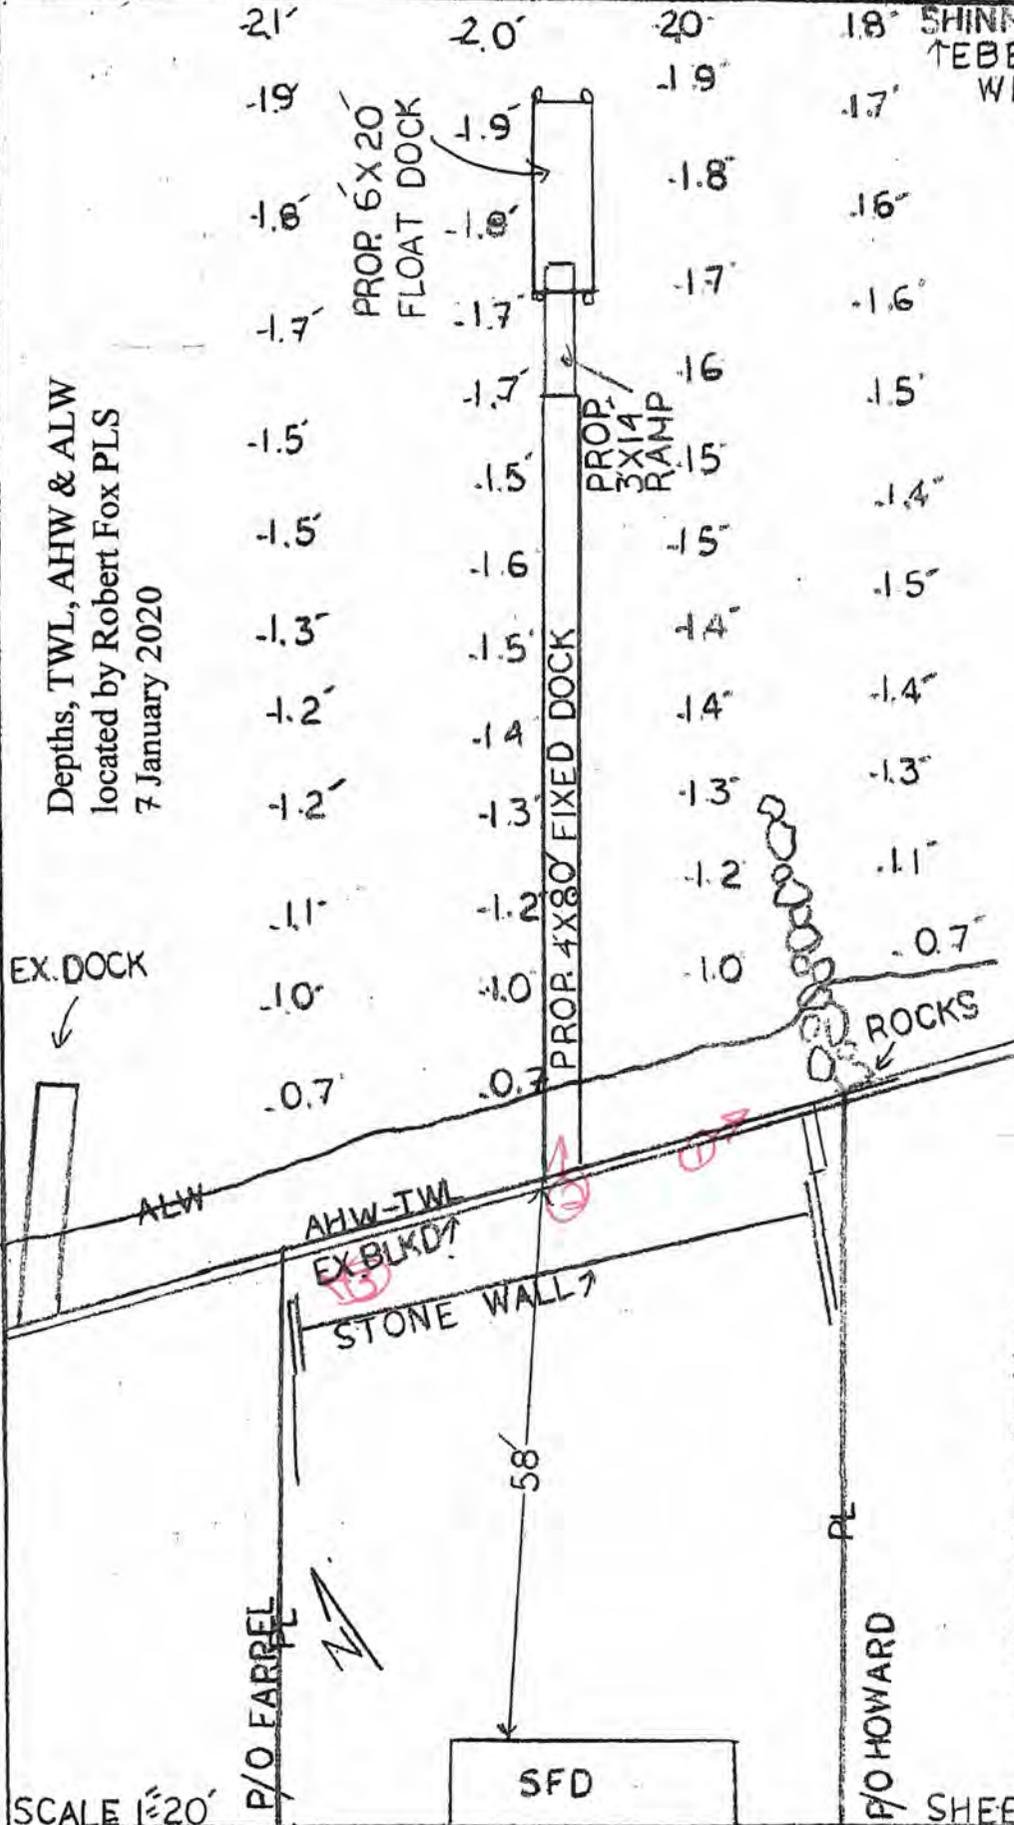

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

<b>Part 1 – Project and Sponsor Information</b>			
Name of Action or Project: Proposed dock assembly			
Project Location (describe, and attach a location map): 4 Cedar Drive, Hampton Bays. Location map enclosed.			
Brief Description of Proposed Action: Applicant proposes to construct a 4'x80' fixed dock utilizing "Thru-Flow" decking, a 3'x14' ramp and a 6'x20' chocked float dock to be secured by 4 piles.			
Name of Applicant or Sponsor: Karen Davidson		Telephone: 917-553-0935 E-Mail:	
Address: 4 Cedar Drive			
City/PO: Hampton Bays		State: NY	Zip Code: 11946
1. Does the proposed action only involve the legislative adoption of a plan, local law, ordinance, administrative rule, or regulation? If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that may be affected in the municipality and proceed to Part 2. If no, continue to question 2.			NO <input type="checkbox"/>
			YES <input checked="" type="checkbox"/>
2. Does the proposed action require a permit, approval or funding from any other government Agency? If Yes, list agency(s) name and permit or approval: Southampton Town Trustees, N.Y.S.D.E.C., NYSDOS & USACOE			NO <input type="checkbox"/>
			YES <input checked="" type="checkbox"/>
3. a. Total acreage of the site of the proposed action? <span style="float: right;">0.222 acres</span>			
b. Total acreage to be physically disturbed? <span style="float: right;">0 acres</span>			
c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor? <span style="float: right;">0.222 acres</span>			
4. Check all land uses that occur on, are adjoining or near the proposed action:			
5. <input type="checkbox"/> Urban <input type="checkbox"/> Rural (non-agriculture) <input type="checkbox"/> Industrial <input type="checkbox"/> Commercial <input checked="" type="checkbox"/> Residential (suburban)			
<input type="checkbox"/> Forest <input type="checkbox"/> Agriculture <input type="checkbox"/> Aquatic <input type="checkbox"/> Other(Specify):			
<input type="checkbox"/> Parkland			

5. Is the proposed action,	NO	YES	N/A
a. A permitted use under the zoning regulations?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. Consistent with the adopted comprehensive plan?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?	NO	YES	
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area? If Yes, identify: <u>Shinnecock Bay</u>	NO	YES	
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
8. a. Will the proposed action result in a substantial increase in traffic above present levels? b. Are public transportation services available at or near the site of the proposed action? c. Are any pedestrian accommodations or bicycle routes available on or near the site of the proposed action?	NO	YES	
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
9. Does the proposed action meet or exceed the state energy code requirements? If the proposed action will exceed requirements, describe design features and technologies: _____ _____	NO	YES	
	<input type="checkbox"/>	<input type="checkbox"/>	
10. Will the proposed action connect to an existing public/private water supply? If No, describe method for providing potable water: _____ n/a	NO	YES	
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
11. Will the proposed action connect to existing wastewater utilities? If No, describe method for providing wastewater treatment: _____ n/a	NO	YES	
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
12. a. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places?  b. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?	NO	YES	
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
13. a. Does any portion of the site of the proposed action, or lands adjoining the proposed action, contain wetlands or other waterbodies regulated by a federal, state or local agency?  b. Would the proposed action physically alter, or encroach into, any existing wetland or waterbody? If Yes, identify the wetland or waterbody and extent of alterations in square feet or acres: _____ _____ _____	NO	YES	
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
	<input type="checkbox"/>	<input checked="" type="checkbox"/>
